

IV. Disclaimer

Failure to provide adequate proof of traceability to a Manufacturer's Data Report, design drawing or other means of identifying and tracing the pressure-retaining item, may result in further investigation before the attachment of a replacement nameplate or re-stamping of code data may be accepted. At the discretion of the TSASK AI and/or Chief Inspector, further engineering evaluation, NDE testing and/or hydrostatic testing may be required for acceptance.

V. Date Requested for Attaching Replacement Nameplate or Re-stamping

Date(s) Requested (YYYY MMM DD): _____

VI. Original Nameplate or Stamped Information

Attached to this form is a true facsimile of the legible portion of the item's original nameplate (if available). Where possible, a rubbing and/or picture of the nameplate shall be attached.

VII. Replacement Nameplate or Re-Stamping Data Submission and Acceptance & Authorization

Notes: (form shall be returned to applicant)

- The signature in Section VII, Point 2 is not permission to attach a replacement nameplate or to re-stamp the data. This signature is TSASK's confirmation that the documents presented are acceptable and the applicant has authorization to proceed with the making of a replacement nameplate or preparations to re-stamp the data.
- If there is insufficient information to prove traceability, the TSASK AI shall sign Section VII, Point 3 and return to applicant.
- The attachment of the replacement nameplate or re-stamping of the code data shall be verified and witnessed by a TSASK Authorized Inspector. The witnessing TSASK AI shall sign Section IX.
- Once the replacement nameplate is ready and/or the QCP company is prepared to re-stamp the data into the pressure-retaining item, the QCP company shall notify TSASK and confirm with the TSASK AI the date.

1. Declaration of Quality Control Company:

I certify that, to the best of my knowledge and belief, that the statements in this report are correct, and that the replacement information, data and identification numbers are correct and in accordance with the provisions of CSA B51 and the original code of construction. I understand that a false or misleading representation of this pressure retaining item or other misuse of evidence of traceability submitted by me or on my behalf may result in the Chief Inspector not accepting the information provided and requiring further investigation.

Quality Control Program Company Representative

Company Position

Date (YYYY-MMM-DD)

2. TSASK Acceptance of Information and Authorization to Proceed

The information provided in this document is acceptable to TSASK. Authorization is granted to prepare to replace the:

- code stamped data; and/or
 nameplate of the above described pressure-retaining item.

TSASK Authorized Inspector

TSASK Inspector Number

Date (YYYY-MMM-DD)

3. TSASK Rejection of the Application

After review of the submitted information and discussion with the applicant, TSASK cannot accept the:

- re-stamping of code data; and/or
 replacement of the nameplate.

TSASK has notified the applicant and the owner that there is insufficient information to prove traceability of the pressure-retaining item.

TSASK Authorized Inspector

TSASK Inspector Number

Date (YYYY-MMM-DD)

Part 2 – Witnessing the Attachment of the Replacement Nameplate and/or Data Re-stamping
(to be filled in after TSASK AI has signed Section VII, Point 2)

VIII. Replacement Nameplate or Re-Stamped Data (To be filled in after Authorization to Proceed (Section VII) is granted)

The applicant shall attach a rubbing and a picture of the following:

- Replacement Nameplate (“Replacement” shall be clearly marked on the Nameplate); and/or
- Re-stamped Data (to be done in presence of TSASK AI)

IX. Witnessing of the Attachment of the Replacement Nameplate or Re-Stamping Data Submission – TSASK

1. TSASK Authorized Inspector Witnessing the Attachment of the Replacement Nameplate and/or the Re-stamping of Data

I, as the duly charged representative of TSASK, have witnessed:

- the attachment of a replacement nameplate; and/or
- the re-stamping of code data pertinent to the pressure retaining item involved.

I further declare that the work was done in accordance with the information provided in Part 1 of this form, *The Boiler and Pressure Vessel Act* and Regulations of Saskatchewan and all applicable Code requirements.
